

TRAY FORMER

MODEL TE-700-VF-CORNER POST

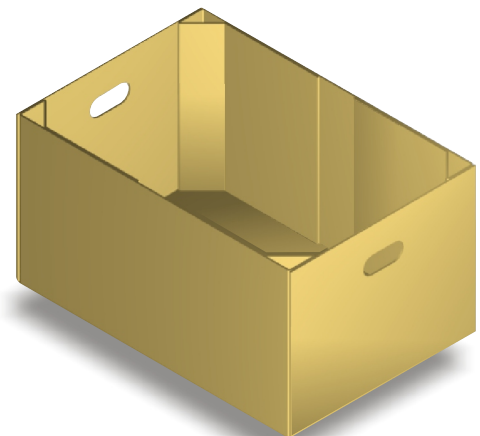

TE-700-VF-CP

This Tray Former is a reliable straightforward machine designed for around-the-clock performance. Its simplified mechanical function offers reliable operation and easy maintenance. This Tray Former automatically selects a blank and then forms a corner-post style tray. The machine produces a continuous flow of trays in the upright position for easy transfer and loading.

Features

- All-welded heavy-duty construction
- Speed up to 40 TPM
- Powered discharge conveyor (9" elevation)
- Positive vacuum pull-down & blank transfer
- Easy-load hopper at 40" elevation with 18"-high blank capacity
- Rack-and-pinion style quick adjustment
- Sliding, electrically-interlocked Lexan® safety guard doors
